

# Skyline View Pinelodges

We think we have created something rather special with our beautiful Skyline View lodge which combines contemporary styling with a warm and welcoming interior. Retaining the spirit of its original namesake, with its impressive lounge skylight, the Skyline View also boasts beautiful timber feature beams and detailing throughout.

Externally the lodge is vertically clad in a contemporary style with exceptionally hard wearing larch timbers. Inside the lodge is bright and light with a white boarded finish. This boarding is extremely tough and resilient to general wear and tear.

The bright and spacious open plan living room has plenty of seating and dining space. Tall windows and doors flood the room with light and the delightful skylight lets the sunshine in and allows you to stargaze at night.

Storage is maximised with the attractive corner fireplace which has plenty of shelves and space for your TV and multimedia systems.

As with all Pinelog lodges, the Skyline View is built to an exacting standard. It is superbly insulated, has quality uPVC doors and windows, branded fixtures and fittings and is fully compliant with BS3632:2015.

Furthermore, we only build to order, and so are always happy to discuss design modifications to suit our customers' individual requirements.

A feature of the kitchen is the stunning island unit which contrasts and complements the tasteful kitchen units and worktop. This kitchen is a delight to use, boasting an integrated fridge freezer, dishwasher, microwave and fan oven all within easy reach. There's also a very welcome wine cooler.

The washing machine is housed in a separate Boot Room. This useful space is somewhere that you can keep coats and shoes along with storage for vacuum cleaner, ironing board etc.

The tour de force of this lodge is the superb bathroom and en-suite.

The bathroom has a freestanding bath surrounded by twinkling led lights along with a separate shower cubicle. A Mira shower adds a touch of luxury to your bathing experience.

The en-suite has a luxurious large shower enclosure and both rooms offer plenty of storage in stylish vanity units. Illuminated mirrors with integrated shaver sockets add a practical touch.

In the master bedroom you will find a very quirky homage to a 4-poster bed which reflects wonderfully the honey tones of the genuine wooden floorboards. There's generous storage space in a walk in wardrobe and the en-suite boasts a luxurious large shower enclosure.

Each bedroom has attractive timber detailing such as a headboard wall or timber bedside sconce, lending warmth and interest to the rooms. Walk in wardrobes provide generous storage space.

## 2 bedroom, 2 bathroom models

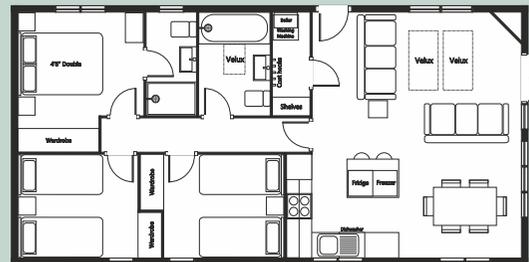

34' x 20' (10.5 x 6.1m)
